Private Journal of a Whaling Voyage in Ship Navaro of N Bedford

Capt James W White Master

Commenced August 7th 1850

to May 22 1853

1850

Remarks on board Wednesday Aug 7th

This day commences with moderate S.E. breezes at 9 A.M. got under way with all sail set our pilot on board & stood out of the bay no incidents this day

Thursday Aug 8th 1850

First part moderate S.E. breezes at 5 P.M. discharged our pilot at 5 mi & ship bearing N.E.E. dis 10 miles from which we take our departure with reluctant hearts we bid adieu to our native land & all that we hold dear on this earth to remain for months perhaps year on the trackless ocean. Whaleing at best is a hard life

obs Lat 40° 03 S
" Long 70° 04 W

Friday Aug 9th

Fresh gales from the S.E. steering S E by S the good ship Napoleon with all her sail set to the best advantage is fast speeding us away from that happy land & nought all around us is one wide expanse of ocean God grant us a prosperous voyage & a speedy return middle & latter part moderate breezes with a plenty of sea sickness & homesickness on board no incidents

obs Lat 35° 37' North
" Long 68° 48' West

Saturday Aug 10th 1850

Light winds from S.E. at 4 P.M. wind hauled to the N.W. steering S.E. under all sail middle part a heavy gale from the East. Latter part fresh breezes from the west this day I have been very unwell no apetite to eat & sick with spells of faintness

Lat 37° 44' South

No Longitude this day

X

Wednesday December 17th 1851

Commences with light land breys at 5 A.M. got under way & left the bay where we have been laying for the last 18 days getting wood water vegetables & all kinds of tropical fruit of which this Island abounds at 8 P.M. take the N.E. trades ship under top gallant sails standing to the S.S.E. wind, we shall remain for a while for sperm oil on or near the Equator here going North to the cold regions again

Saturday December 27th 1851

At 6 A.M. raised a shoal of sperm whales on our lee Beam 5 miles off at 7 lowered 4 boats for them we boat had the good fortune to get fast in a short time after-likewise the chief & the third mate also & lowered the other 2 boats following them at noon range up with them again & 2 more boats got fast all we have taken 3 whales out of the shoal which will do very well for these hard times

3 of them

Obs Lat 10° 20' South Long 137° 00 West

Saturday January 3d 1852

Commences with strick N.E. trade winds ship under top gallant sails cruising at 5 A.M. commenced breaking out the main hatch way to stow down our oil in breaking out I got my left foot jamed between 2 casks of water so bad that I must lay up for a while I perceive as the bones are broke I cannot bare any weight upon it or touch it to the decks

X

Sunday January 18th 1852

My foot is getting along nicely to day I can bare some weight on it so as to hobble about decks have been using a shower bath for it for a few days past & I find it is a great benefit to it

Ship Nassau bound to Hawaii
Maui

Sunday January 17th 1852
This day left the shore whale ground for
the Sandwich Islands to remain for the winter

Saturday March 6th 1852
Arrived at Lahaina Hawaii after a very
S. but dangerous all in your ghost health

Tuesday March 16th 1852 Sailed
Weighed anchor & made all sail bound
to the Arctic ocean may we with the blessing of
God have a pleasant & prosperous cruise

Ship Nassau bound to the Arctic

Friday Evening March 19th 1852
Once more we are clear from land our
anchors & chains & all our ground tackle having
snugly stowed away for a long cruise in the
northern ocean with a crew of 32 men all told
& in good health hoping in due time to return
again with a full cargo of oil

March 21st 1852 First birthday of [illegible]
A dull dreary day with fresh gales
from the west Latter part heavy rain
this is the birth day of the twins we will drink
to them long life & prosperity I should like
to be with them to night, but it cannot be they
will have another birth day before I can see them
if we live

At Lat 21°.00 N Long 162°.00 West

Remarks on board Thursday April 1st 1852
All this day moderate & fine with ship
under all sail steering west this day passed
the Marcian
observed Lat 28°46' N Long 178°42' East

Tuesday April 13th 1852
Barometer
Gos
Commenced with fresh gales from the north
with cold freezing weather, In company with
the ship Bartholomew Gosnold of Hudson last
Tuesday saw a man fall from the main top into
the sea it must be a cold birth in this cold
water a boat has lowered for him one chance
out of 50 if they get him alive. Capt White
has gone on board of him they have saved him
but he was about gone when they got to him
so ends this day all well on board
obs Lat 42°56' N Long 167°20' East

Wednesday April 14th 1852
Fine morning with light airs from the S.W. &
a thick snow storm at 4 P.M. now the fair Spanish
A gone on & so all hands will be in hopes expectation
of seeing whales, hoping when the morrow comes
good to make a clutch at them

Lat 56°30' N. Long 166°20' East

Thursday April 15th
to day saw'd a polar whale blowed ... the
boats & struck him killed him & sunk
him nothing unnecessary upon the Joint
days work but hope for better luck next
time

Lat 57°06' North land in sight
5 & 9 miles off

Ship Nassau in the Sea of Okhotsk

Remarks on board Saturday May 1st 1852

First part of this day fresh gales from the South at 12 P.M. spoke the Geo. Washington last from Hilo last night came on board had a pleasant time. She visited the evening with us. Latter part moderate breezes from the N.E. with thick snow storm so much that day

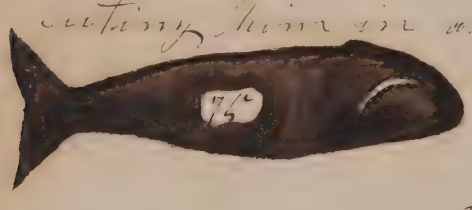
Lat 47° 24' N Long 165° 30' East

Sunday & Monday

Having a gale from the Eastward and a thick snow storm this keeping too under storm sails heading S.S.E.

Saturday May 15th 1852.

Fresh gales from the E.S.E. at 7 P.M. raised a sperm whale ahead the boats & took him at 8 this alongside. Sunday all employed on board cutting. Time at 11 A.M. finished cutting.



Lat 45° 30' North

Long 165° 26' East

Wednesday May 19th 1852

This day finished boiling out the whale a very poor whale but a good large head of bone. Thankful for small favours hoping for larger ones, fine pleasant weather plenty of whales around but no whales If we could only have plenty of whales in such weather as this it would be nothing but about to take them & take care of them

Remarks on board Monday May 31st 1852

This day commences with fine fair weather & calm saw a few polar whale lowered a boat & took him along side & cut him in all hands employed at 3 P.M. finished cutting in & commenced boiling, found 60 barrels of fine & 3 Tons short to the whale Irons marked ship Kingsley of N.B.

Thursday June 3d 1852

Thursday finished boiling out the whale & take up a day for making the Canadian cold & high water from the north with fog squalls very uncomfortable weather & no whales to be seen

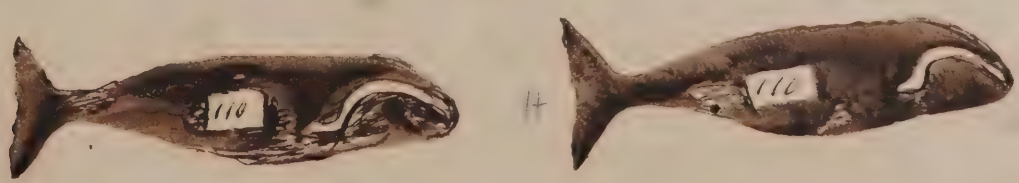
obs lat 45° 40' N Variation empied at 4 P.M.

Sunday June 12th

off Cape St Thadeus whales plenty took 2 fine 1s took another along side whales plenty & easy taken all hands busily employed

Saturday June 19th 1852

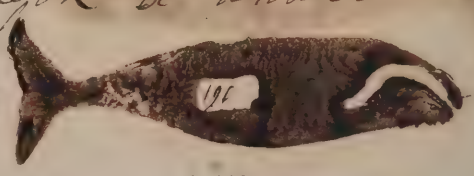
25 miles S.E. from Cape Ordovicia clear weather & calm whales plenty lowered & took one very large one Sunday the 20th took another all well & busy, well if whaling holds out this way I think we shall get full this season



Sick Natal steering for Natal

June 4 5. 6 & 7th strong gale & head sea some few north whales seen around the ship but it is blowing to heavy to lower for them

June 8th 9th lowered took a whale which made 190 bbls of oil



June 10th all hands employed whaling Boiling & stowing down oil. saw a sail on five years ago. hull hunt nearly to the water's edge but could not make out her name but from plenty of ships in sight there is no doubt but her ships are all safe on board some of them

Monday June 12th

Whales scarcely to be seen stood Eastward with all sail 40 sail of ships in sight most of them employed in whaling saw the usual quantity of Natives which were on fire yesterday go down & the sea clear over them

Wednesday July 14th

have not seen a whale since the 6th all the the weather has been very bad most of that time this is the first clear day we have had since the 12th so gotta shout chorus see whales chase from head & we must steer them to the north 15th heard guns from their direction with ships in sight carrying a heavy press of sail to each clear from any land & latter part more whales & birds the north make all sail standing Eastward against a heavy swell & I am sick of this cold wet keep weather - I cannot enjoy good health whilst I am in it I have been quite unwell for several days

keep

Navarin S. Arkt. Angel Bay

Saturday July 17th 1852

This day comes in with moderate breze from the west with clear weather ship under top gallant sails steering Eastward lost Bearing in sight E. by N. dis. 6 miles at 6 oclk saw 2 polar whales heard the boats & took both of them so ends this day all hands employed cutting them in

Lat 64° 28' N

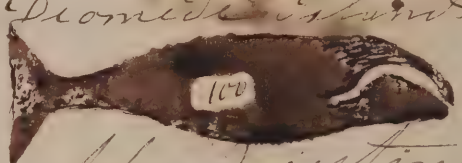
Sail Down In Behrings Straits

[redacted]

Thursday August 12th 1852

This day comes in with fresh gales from the South sail not seen a chance to take a whale since can last before to day we took one this afternoon & after getting him along side it came in thick fog & blew heavy from the south drifting the ship on a lee shore one Esquimaux Canoe at 8 P.M. got him away & made sail to work off shore Latter part gale shift & we steered up our whale boats & took on board & then took him along side so end this day Diomede Islands bearing North East 7 miles



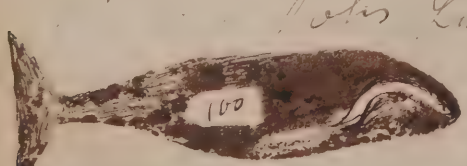
CW

Friday all hands employed cutting in the whale at 8 P.M. spoke the Geo. Washington Capt Gibbs comes on board has taken 9 whales this season Latter part took another whale all hands employed cutting in & hoisting

Friday September 3 1852

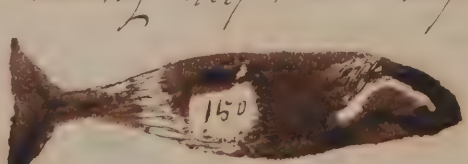
comes in with strong breeze from the south saw whales lowered & took one Latter part saw plenty of whales but it is blowing to heavy to lower no boats Steered off the land, saw a ship in sight

Lat 69° 01' North Long 171° 00 West



Sunday September 5th 1852

Pleasant weather saw one whale lowered for him no end this day all hands employed cutting in a great many ships in sight but none of them



Ship Sapaul in the Arctic Ocean

1852

Remarks on board Saturday September 18th
This day comes in with light winds from the North
& pleasant weather saw whales plenty, Lowered 5 took 2

Lat 68° 12' N Long 170° 40' West

Wednesday September 29th 1852

Comes in with heavy gales from the N.N.W. Ship
under the topsail & main top gallant sail steering W.S.W.
at 8 o'clock saw Cape East & the Diomede Islands several sail
in company all bound southward with very fine weather plenty
of whales & see making on the Ducks I think it is about time to go
We have been blessed with a good season work & now to get it out of
this bad place in safety is what we must try to do next

Tuesday November 9th 1852

This day arrived at Lahaina after a long & tedious
passage of 46 days at 6 P.M. came to an anchor in Lahaina
roads in 20 fathoms of water there is a fleet of 40 ships
laying here all from the northern whaling ground

Monday November 29th 1852

Having got all our water & necessaries on board & got
the ship ready for sea which all hands have been employed in
doing ever since we have been laying here at 3 P.M. weighed
anchor made all sail & stood off shore at 6 Capt came on
board & left the ships away for Oahu

Ship Captain Homeward bound

Tuesday December 20 th 1842
at 7 A.M. arrived of the port of Honolulu left
next one there ship laying off & on

Homeward bound

Thursday December 22 1842
at 10 A.M. left came on board made all sail
& stood off shore steering W.S.W. now old ship Thou art
bound Homeward let us see what progress you can make
I fear your poor old bones will ake before you get there
nevertheless you must be tryed, we will know what you
can do I feel in some what of a hurry to get along & the sooner
you will sail the better - I shal be suited

Monday December 25 th 1842
This day took the N.E. trade wind in Latitude 21° 8'
& Longitude 162° 00' west fine pleasant weather employed
the watch in drawing & knotting yarns
